

Pneumatic Plier

Model JK20T779L22

Staple 779

The JK20T779L22 is a heavy duty pneumatic plier for stapling thicker material up to 18 mm.

The JK20T is a low weight tool of robust design and well balanced. It is easy to work with.

The power unit is well proven and has provided dependable operations for many years. Good reliability and excellent stapling qualities.

The stapling tongue is pneumatically driven and both compresses and staples the material simultaneously.

The is primarily intended for stapling packaging, bags and various types of sheeting but also ideally suited for such applications as industrial stapling and splicing of different materials.

The JK20T779L22 uses staples JK779 in leg lengths from 14 mm to 22 mm.
