

■ **Re-feed Function**

The "re-feed function" resets and recycles the machine if a strap feed failure occurs.

■ **Easy Maintenance**

JK-5 steps through the strapping cycle one operation at a time. By observing the operation of the JK-5 in this mode, it is easy to identify problems and make adjustments.

■ **Seal Joint Alignment**

A new strap alignment device in the right bandway assures perfect strap alignment, even with 1/4" or 5mm strap.

■ **Compact !**

Space-efficient design with internal coil dispenser.

■ **Newly designed Coil Brake**

This innovative, elegant design provides a soft start and stop of the strap coil. The JK-5 is the most reliable machine in its class.

■ **Easy Strap Width Conversion**

The JK-5 can be set to run 5mm to 1/2" polypropylene strap. No conversion parts are required.
